EDUCATION

Shivalik College of Engineering

Bachelor of Technology (CSE)

Jul 2022 - June 2026

MM Inter College Nagina

12th Grade

Passout - 2022

D V M I C NAGINA BIJNOR

10th Grade

Passout - 2020

SKILLS

Programming Language: Python, C

Web Development: HTML, CSS, Javascript

CERTIFICATE

• Applied Data Science : Real - World Problem (academIAS) [🔗](#)

This project uses data science techniques to solve a real-life problem. It involves collecting data, analyzing it, and using models to find useful insights or make predictions that help in decision-making.

• Web Development (Internshala Training) [🔗](#)

PROJECTS

Churn Prediction (Using Data Science)

Built a machine learning model to predict customer churn using Python, Pandas, and scikit-learn. Performed data cleaning, feature engineering, and trained classification models (Logistic Regression, Random Forest) to improve retention strategies with 85% accuracy.

Online Bookstore Web App Description:

Developed a full-stack web application for browsing and purchasing books using HTML, CSS, JavaScript (frontend) and Flask with SQLite (backend). Implemented user login, search, cart, and admin dashboard for inventory management.

Startup Services Website [🔗](#)

Created a clean and modern website using HTML and CSS to showcase startup services such as mobile app development, web development, and search engine optimization (SEO). The site includes service descriptions, a contact form, and responsive design. Deployed the project using GitHub Pages for easy access and sharing.

Gaming Tournament Website [🔗](#)

Designed and developed a responsive website using HTML and CSS for hosting online gaming tournaments like BGMI and other popular games. The site includes sections for upcoming events, registration forms, rules, and contact details. Hosted the website on GitHub Pages and ensured mobile-friendly design for better accessibility.
