

VISHAL KASAUDHAN

Technical Writer — GenAI/ML Documentation | API Documentation | CPG, Fintech services, & Automation Domain

Noida, India | +91-9670923151 | vissukasaudhan@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented Technical Writer with 3+ years of experience creating and managing technical documentation for automation, packaging, and pharma systems, including projects for CPG (Consumer Packaged Goods) clients across food, beverage, and personal care manufacturing lines. Skilled in developing user manuals, SOPs, installation guides, and troubleshooting documentation that simplify complex technical concepts for end users and operators.

Regularly leverages GenAI and ML tools (ChatGPT, Google Gemini, Copilot, Claude, etc.) in day-to-day documentation work — drafting, structuring, and refining content, accelerating research and review cycles, and maintaining consistency across large documentation sets. Builds product understanding by working directly with engineering, QA, and R&D teams to translate technical product knowledge into clear, user-focused documentation.

Experienced in API documentation (REST APIs, JSON, authentication, error handling) and expanding into structured authoring (DITA/XML) and modern documentation tooling.

KEY SKILLS

GenAI/ML & AI-Assisted Writing: ChatGPT, Google Gemini, Copilot, Leonardo — used regularly for drafting, editing, and streamlining documentation workflows

API & Technical Documentation: REST APIs, JSON, API Documentation, Bearer Authentication, Error Handling, Postman

Product Documentation: Cross-functional collaboration with engineering/QA/R&D to translate product functionality into end-user documentation

Documentation & Authoring Tools: Microsoft Word, Markdown, GitHub, MS Office 365.

Multimedia & Tools: Screenpresso, Canva, Postman

Domain Expertise: CPG (food, beverage, personal care packaging lines), HMI Documentation, SOP Writing, Automation & Packaging Machinery, Electrical & Pneumatic Systems, Pharma Track & Trace / Serialization, Fintech Services

Soft Skills: Communication, Collaboration, Problem-Solving, Time Management, Adaptability

PROFESSIONAL EXPERIENCE

Technical Writer | Single Focus Services LLP (Client – Paytm)

April 2026 – Present

- Created and maintained user manuals, applying GenAI tools to accelerate drafting and maintain consistency across documents.
- Collaborated with SMEs and cross-functional teams to ensure accuracy and completeness.
- Worked in an Agile environment, aligning documentation with product releases and building deep product understanding through close work with product managers.
- Coordinated with developers and product managers for technical validation.
- Managed multiple tasks and deadlines with effective time management.
- Contributed to team collaboration and documentation processes.

Technical Writer | PharmaSecure PAS India Pvt. Ltd.

January 2026 – April 2026

- Developed user manuals, SOPs, DQ, IQ, and OQ documentation for pharma and non-pharma systems, including Track & Trace and Serialization solutions used across CPG and pharma packaging lines.
- Collaborated with engineering, developers, QA, and product teams to gather and validate technical information, building strong product-level understanding of serialization workflows.

- Simplified complex workflows into clear, user-friendly documentation for operators and technicians.

Technical Writer | ClearPack Group

July 2024 – January 2026

- Created and maintained user manuals, installation guides, and SOPs for packaging machinery supplied to CPG clients across food, beverage, and personal care manufacturing lines.
- Developed HMI documentation for Siemens and Allen-Bradley systems.
- Worked closely with engineers to document operations, maintenance, and troubleshooting procedures, deepening product knowledge of packaging line equipment.
- Ensured documentation standardization and consistency across product lines.
- Supported translation and localization for international CPG customers.

Technical Writer & Illustrator | AAS Techno Docs

May 2023 – June 2024

- Authored operation, installation, and maintenance manuals for packaging systems serving CPG manufacturing clients.
- Developed troubleshooting guides and spare parts documentation.
- Assisted in creating technical illustrations and schematic references.
- Participated in document formatting, editing, and compliance reviews.

PROJECTS

API Documentation Portfolio

GitHub: github.com/Vishal160703/api-documentation-portfolio

- Created structured API documentation using Markdown, applying GenAI tools to speed up drafting and quality review.
- Documented GET and POST endpoints with request and response examples.
- Implemented Bearer Token authentication.
- Included structured error handling with HTTP status codes.
- Added real-world workflow (Use Case) to demonstrate API usage from a product perspective.
- Used Postman for API testing and validation.

EDUCATION

Bachelor of Arts (English Honors) — Ongoing(Last Year)

Dr. Ram Manohar Lohiya Avadh University, Ayodhya

Aircraft Maintenance Engineering — Completed

Alpine Institute, Dehradun, Uttarakhand

CAREER OBJECTIVE

To grow as a Technical Writer in a global organization by contributing high-quality, user-focused documentation across GenAI/ML-driven workflows, API documentation, and CPG/product domains — leveraging structured authoring and AI-assisted content creation to support scalable, efficient documentation processes.
