

NILESH JAIPRAKASH SINGH

.NET Core Developer | 2+ Years Experience Email: snilesh2795@gmail.com

Phone: 7208556997 | Location: Kalyan, Thane, MH

PROFESSIONAL SUMMARY :

.NET Core Developer with 2+ years of experience building scalable web applications using ASP.NET Core, Web API, and SQL Server.

Strong in backend development, clean architecture, and performance optimization. Currently expanding skills in Basic React, System Design Basics, and AI fundamentals.

CORE SKILLS :

- Backend: ASP.NET Core, MVC, Web API, EF Core, ADO.NET
- Frontend: React Basics, JavaScript, HTML, CSS
- Database: SQL Server (SPs, Views, Triggers, Optimization)
- Tools: Git, Visual Studio, Postman, Swagger, NuGet, SSMS, VS Code, Postman.
- Concepts: OOP, LINQ, Async/Await, Caching, JWT Auth, Clean Architecture
- Additional: System Design Basics (Scalability, API Design, Caching), AI Basics (LLMs, APIs, Prompting)
- Cloud : Cloud: Microsoft Azure (Virtual Machines, App Services, Storage, Basic Networking)
- Data Structures & Algorithms (Basics)

PROFESSIONAL EXPERIENCE :

Scan Services | .NET Core Developer (Mar 2023 - Jun 2025)

- Developed scalable MVC and Web API modules using ASP.NET Core and C#
- Implemented dependency injection, middleware, and reusable components
- Optimized SQL queries and stored procedures improving performance by ~30%
- Delivered features faster by improving development workflow

- Worked with cross-functional teams for requirement gathering and deployment

UpGrad Pvt. Ltd. | .NET Core Developer (Aug 2025 - Oct 2025)

- Built REST APIs for insurance policy and claims systems.
- Implemented JWT authentication and role-based authorization.
- Improved API reliability with proper exception handling and logging.

PROJECT HIGHLIGHTS :

E-Commerce System :

- Enhanced and maintained backend modules to improve system performance and scalability.
- Optimized APIs and database queries, reducing response time and improving efficiency.
- Implemented SEO best practices, resulting in better search visibility and increased traffic.
- Collaborated with cross-functional teams to deliver high-quality features and improvements.
- Ensured code quality, performance tuning, and smooth deployment processes

Insurance API System :

- Developed secure and reliable APIs using JWT-based authentication.
- Designed Scalable and modular API architecture for efficient integration.
- Implemented best practices for data security and request validation.
- Optimized API performance and ensured smooth communication between services.

EDUCATION :

- B.E. Chemical Engineering - TSEC Mumbai
- Diploma : Government Polytechnic, Thane

Course And Certification :

- ASP.NET Core Web API – Udemy
- React Basics – YouTube
- SQL Optimization / Database Design – YouTube
- Microsoft Azure Basics – Online Course
- DSA Course – Striver ,LeetCode
- System Design Basics – YouTube
